

TurTrades

The screenshot shows the TurTrades application window. On the left, there are several panels: 'Symbol' (HERO), 'Dates' (Start: 8/10/2004, End: 8/10/2009), 'Stocks option' (Stocks, EFTs, User), 'Stop settings' (Stop Auto: 10%, 0.0%), 'Chart Settings' (Upper Chart Settings: Days 200, MA 15, Study Price Ch.; Lower Chart Settings: TA 1 MCAD, TA 2 DMI, TA 3 RSI), 'Trading Statistics' (Initial: 1/7/2008, Traded: 23.21, Current: 2/5/2008, 23.36, 23.36), and 'Account History' (table with columns Num, Symbol, Price, Type, D). At the bottom left, there are buttons for 'TurTrade on Web', 'Save', and 'Reset Account'. On the right, there are two charts: 'Upper Chart' (HERO Daily) and 'Lower Chart' (HERO Weekly), both showing price channels and various indicators like DMI, ADX, and Relative Strength Index.

Numbered callouts (1-11) point to the following features:

- 1: Actions (NewTrade, NextDay, Buy, Sell, Short, Cover, Next, 20, Show)
